## LANGUAGE

English

Hindi

## CAREER OBJECTIVE

Aspiring Python Developer with a passion for building real-world applications. I am currently pursuing MCA and actively developing mini projects using Python. I am seeking an internship opportunity as a Python Developer to enhance my practical skills and grow towards my long-term goal of becoming a Python Web Developer.

## PROJECTS

### Project Description Link

- **Calculator App** : A CLI-based calculator to perform arithmetic operations.- <https://github.com/gustybreeze/python-calculator>
- **To-Do App** : A Python-based command-line task manager.- <https://github.com/gustybreeze/python-to-do-list-app>
- **Quiz App** : A simple quiz application with scoring logic.- <https://github.com/gustybreeze/python-quiz-app>
- **Password Generator App** : Generates secure passwords using Python.- <https://github.com/gustybreeze/python-password-generator-app>

## CERTIFICATES

- Python (Basic) – HackerRank
- Issued: 13 July 2025
- Credential ID: BD02774E783A
- Link: <https://www.hackerrank.com/certificates/bd02774e783a>

## STRENGTHS

- Self-learner with a consistent practice habit.
- Builds projects to understand real-life applications.
- Eager to learn Web Frameworks like Flask/Django.
- Strong focus on writing clean and readable code.

## CURRENTLY LEARNING

- Basics of Web Development (Ongoing – July 2025)
- Python Web Frameworks (Planned: Flask/Django).
- Hosting apps on platforms like Replit, Render, etc.
